

Homework Tasks

Maths – This year, we will be using MyMaths for children to complete their homework tasks.

Reading – 10-15 minutes of daily reading to be logged in reading record books.

Spellings / Writing Task – Learn spellings for spelling test and complete a paragraph or write some sentences using the words in context.

In addition to completing the Maths, Reading and Spellings tasks, the grid below hosts a range of homework tasks to complete over the course of the Term.

There are 9 tasks to choose from, and we would like to see that by the end of the term, you have completed at least 3 of them. If you choose to complete more, that is acceptable.

Take a look and choose the ones that you think will help you the most in your learning in school. Homework books should be brought into school each **Monday**. They will be marked and handed back on **Wednesday**.

<u>Humanities</u> Where was the first volcano? Did it happen in Pompeii or elsewhere? Create a time line of a few volcanic eruptions you have researched or heard about in class.	<u>Humanities</u> What is a volcano? Draw and label the parts that create a volcano. Bonus bit of fun – create your own, and send us a video of your volcanic eruption.	<u>Science</u> How are fossils made? Describe the process through a story board set of drawings. <i>Optional: Create your own fossil to bring in for Science!</i>
<u>Humanities</u> Are a volcano and an earthquake the same thing? What are the differences? Are there any similarities? Create a Venn diagram to display your knowledge.	<u>RE</u> What is the Trinity? Create a poster to display facts about the Trinity	<u>GPS</u> Identify the difference between the two sets of apostrophes (contraction and omission). Create a bank of apostrophes for contractions and apostrophes for omission. Display some images with your bank of words to help illustrate your understanding.
<u>Science</u> Can you find some different types of forces happening in or around your home? Where would friction occur? Magnetism? Can you find and label where friction and magnetism happen?	<u>Maths</u> Option 1: Challenge a family member, sibling or friend to a game of 'Hit the Button' to continue working on your multiplication. Option 2: Have a go at some activities on MyMaths. How did you get on?	<u>Humanities</u> Write a diary entry as someone living in Iceland where the volcanoes had erupted. How do you feel? What do you see? What do you hear? What do you smell?
