- Growing Tomorrow's Leaders -

Maths Teacher Assessment Grid. Year EYFS.

Number and Place Value	Addition and Subtraction	Multiplication and Division	Measurements	Geometry
Counting to 5.	Sorting into groups.	Practically solve problems involving doubling.	Time: Using every day language related to times in their day.	Shape and Space: Spatial awareness.
Recognising and selecting numerals to 5.	One more to 10.	Practically solve problems involving halving.	Time: Measure short periods of time.	Shape and Space: Talks about shapes of everyday objects in the environment.
Counting to 10.	One less to 10.	Recognise odd and even numbers in practical contexts.	Time: Order and sequence familiar events.	Shape and Space: using mathematical language for 3D shapes.
Recognising and selecting numerals to 10.	Addition by counting all.	Practically solve involving sharing equally.	Measure: order two or three items by length or height.	Shape and Space: using mathematical language for 2D shapes.
Counting out a quantity from a larger group.	Number bonds to 5.		Measure: order two or three items by weight and capacity.	Exploring Patterns: Using familiar objects and common shapes to create patterns.
Comparing quantities of identical and non-identical objects (more, less, same).	Number bonds to 10.		Measure: compare length, height, weight and capacity using non-standard measures.	Exploring Patterns: Exploring more complex patterns.
Estimating how many (to 10) and check by counting.	Addition by counting on.		Begin to use everyday language related to money.	
	Subtraction by counting all.		Using positional language such as behind, next to.	
	Subtraction by counting back.
