

Jigsaw PSHE 3-11

Knowledge and Skills

Progression Map

Skills and Knowledge Progression Map

Jigsaw, the mindful approach to PSHE, is a progressive and spiral scheme of learning. In planning the lessons, Jigsaw PSHE ensures that learning from previous years is revisited and extended, adding new concepts, knowledge and skills, year on year as appropriate. The table below draws out the **spiral** knowledge and skills progression within all six Puzzles (units of work) including the key vocabulary used in each year group; explicit links to the DfE statutory Relationships and Health Education outcomes 2026 have been made in each Puzzle.

INTENT: Jigsaw holds children at its heart, and its cohesive vision helps children understand and value how they fit into and contribute to the world. With strong emphasis on emotional literacy, building resilience and nurturing mental and physical health, Jigsaw 3-11 properly equips schools to deliver engaging and relevant PSHE within a whole-school approach. Jigsaw lessons also include mindfulness allowing children to advance their emotional awareness, concentration, focus and self-regulation. These opportunities for spiritual, moral, social and cultural (SMSC) development and emotional literacy are integral to children's understanding of themselves and others and to increasing their capacity to learn.

IMPLEMENTATION: Jigsaw 3-11 offers a comprehensive programme for Primary PSHE, including statutory Relationships and Health Education, in a spiral, progressive and fully planned scheme of work, giving children relevant learning experiences to help them navigate their world and to develop positive relationships with themselves and others. Every lesson offers opportunities for SMSC development, clearly mapped and balanced across each year group, alongside structured opportunities to practise and enhance the five skills associated with emotional literacy: self-awareness, social skills, empathy, motivation and managing feelings**.** We encourage schools to adapt the materials to make them suitable to the needs of the children in their class.

IMPACT: This can be established through assessment identified in the key learning. This can include pupil voice, informal assessment, reviewing behaviour records an attendance.

This progression map illustrates how knowledge, skills and vocabulary develop across the programme from Early Years through to Year 6, showing how learning is revisited and extended year on year. The document is fully editable so that schools can adapt it to reflect how they tailor Jigsaw PSHE for their own school community. The evidence sources and enrichment ideas included for each Puzzle are examples rather than an exhaustive list, and schools may wish to add their own, or get in touch with us for further sources of research and data.

Similarly, the statutory RSHE links provided for each Puzzle indicate the strongest connections but do not represent a complete mapping. For the full mapping of Jigsaw PSHE to each of the DfE's RSHE July 2025 statutory statements, which we have abbreviated for space in this document, please refer to the RSHE Mapping Documents available in the Community Area on the Jigsaw portal.

Changing Me Puzzle – Summer 2

About this Puzzle

Changing Me supports children through the physical and emotional changes that come with growing up — from exploring life cycles in the early years through to learning about puberty, reproduction and the transition to secondary school. Children develop accurate, age-appropriate knowledge and the emotional vocabulary to feel confident about changes happening to their bodies and lives. Self-image, body confidence and challenging negative body-talk are important threads, alongside correct anatomical vocabulary, understanding privacy and consent, and recognising appropriate and inappropriate contact. The Puzzle also addresses wider changes in families, friendships and circumstances, helping children build strategies for coping and seeking support.

Note on Sex Education: Please check your school's policy on Sex Education before planning and teaching Piece 4 (Year 5) and Piece 3 (Year 6), and take into account arrangements for any pupils whose parents have chosen to withdraw them from these lessons.

Key evidence

- **NHS Guidance on Puberty** — Puberty can begin ages 8–13 for girls and 9–14 for boys; some girls start menstruation as early as Years 3 or 4. Statutory guidance requires teaching before onset.
- **Evidence on the influence of pornography on children and young people** reinforces the importance of age-appropriate sex education and body safety education from the earliest years
- **Sex Education Forum Young People's RSE Poll (2025)** - highlights that whilst puberty was the most fully covered RSE topic (71%), significant gaps remain — 41% learnt nothing or not enough about the correct names for genitalia and 36% about periods and menstrual wellbeing. Young people consistently called for earlier education on these topics.

Wider curriculum and enrichment

- Invite the **school nurse** to support learning about hygiene and puberty
- Invite **parents with a new baby** when considering life cycles
- **Transition materials** to support pupils meeting new class teachers and Year 6 pupils moving to secondary school: Belonging section of Jigsaw+

Jigsaw+ and further resources

- Additional lessons in **Keeping Healthy and Safe** in Jigsaw+: Hormones in Puberty, FGM and Sensitive Issues, Sun Safety and Water Safety
- **Safety assemblies** on water safety and fire safety coming Summer 2026
- Puzzle-specific weekly assemblies available in Whole School Resources

Statutory mapping

The most closely linked statutory expectations are summarised below, but for more thorough mapping and the full wording of every standard, go to the RSHE Mapping Document in the Community Area.

Strongest RSHE 2025 Relationships contributions	**FPCM 1** – Importance of loving, stable families (stable relationships for raising children). **FPCM 2** – Characteristics of healthy family life. **RKR 8** – Self-respect and its link to happiness. **RKR 10** – Understanding and challenging stereotypes	**BS 1** – Appropriate boundaries. **BS 2** – Concept of privacy and its implications. **BS 3** – Each person's body belongs to them, and the differences between appropriate and inappropriate/unsafe physical and other contact.	**BS 5** – How to recognise and respond to relationships where they may be at risk of harm. **BS 6** – How to recognise and report feelings of being unsafe. **BS 7** – Where to get advice.
Strongest RSHE 2025 Health contributions	**GW 3** – Range and scale of emotions, particularly around change. **GW 4** – Vocabulary to describe feelings. **GW 8** – That change, loss and bereavement can affect wellbeing and that everyone reacts differently.	**GW 9** – Where and how to seek support. **HP5 –** Personal hygiene, germs, bacteria and handwashing **DB 1** – Correct names of body parts including penis, vulva, vagina, testicles, scrotum, nipples; understanding these are private; skills to express own boundaries.	**DB 2** – Facts about the menstrual cycle including physical and emotional changes; periods can start at 8 so covering before onset. **DB 3** – Key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes

Overview Changing Me	Children are encouraged to think about how they have changed from being a baby and what may change for them in the future. They consolidate the names and functions of some of the main parts of the body and discuss how these have changed. They learn that our bodies change in lots of different ways as we get older. Children understand that change can bring about positive and negative feelings, and that sharing these can help. They also consider the role that memories can have in managing change.	In this Puzzle, children learn about life cycles and the changes that happen as humans and animals grow. They reflect on how their own bodies have changed and develop understanding that everyone grows at different rates. Across the six Pieces, children learn the correct names for private body parts, explore how boys' and girls' bodies can be different, and practise respecting their own bodies and those of others. They also think about feelings linked to change, such as excitement and worry, and learn ways to cope. At the end of the Puzzle, children contribute their flowers of change work to the whole school Tree of Change display, celebrating growth, learning and new beginnings.	In this Puzzle, children explore life cycles in nature and how humans grow from young to old, learning that some changes are outside their control. They reflect on how their own bodies and independence change over time and develop respect for differences in themselves and others. Across the six Pieces, children learn correct names for body parts, understand privacy, and practise being assertive about touch and personal boundaries. They also think about feelings linked to future change, such as excitement and worry, and learn ways to cope. By the end of the Puzzle, children create Leaf Mobiles to celebrate growth and looking ahead.	In this Puzzle, children learn how babies grow and explore the physical changes that happen to bodies as people grow up, including some inside and outside changes linked to puberty. They develop understanding of personal hygiene and why caring for their bodies becomes more important as they grow and change. Across the six Pieces, children reflect on their feelings about change, learn correct vocabulary for body parts, challenge family stereotypes, and consider who they can ask for help if they feel worried. They also think about future transitions and how to cope with them. By the end of the Puzzle, children create Ribbon Mobiles to celebrate growth and looking ahead.	In this Puzzle, children explore identity and what makes them unique while learning about physical and emotional changes linked to puberty, including menstruation. They consider the role of families, trusted adults, and inner circles in providing care and support. Across the six Pieces, children develop strategies for coping with change, managing worries, and accepting things beyond their control. They practise reflecting on personal goals and positive changes they would like to make. By the end of the Puzzle, children use Circles of Change to think about future transitions and celebrate growth and resilience.	In this Puzzle, children explore self-image and body confidence while learning about physical and emotional changes during puberty for girls and boys. They develop understanding of menstruation, male puberty, and how media influences perceptions of appearance and wellbeing. This Puzzle includes one non-statutory sex education lesson where children learn about conception, fertility support, and how babies are made. Across the six Pieces, pupils practise identifying trusted adults and reliable sources of information, alongside discussing responsibilities linked to growing up. By the end of the Puzzle, children reflect on upcoming transitions using Circles of Change and consider how to manage feelings about future changes with confidence and resilience.	In this Puzzle, children explore self-image and self-esteem while learning about physical and emotional changes during puberty. Across the six Pieces, children reflect on identity, adolescent friendships, and the pressures linked to appearance and growing independence. They practise challenging negative self-talk and identifying trusted adults for support, alongside discussing attraction, consent, and respectful relationships. This Puzzle includes a non-statutory sex education lesson where develop understanding of reproduction, pregnancy, and birth. By the end of the Puzzle, children consider the transition to secondary school, using Circles of Change to reflect on worries, hopes, and how to prepare confidently for the year ahead.

© Jigsaw Education Group

Taught knowledge	**Knowledge** • Know the names and functions of some parts of the body (see vocabulary list) • Know that we grow from baby to adult • Know who to talk to if they are feeling worried • Know that sharing how they feel can help solve a worry • Know that remembering happy times can help us move on	**Knowledge** • I am starting to understand the life cycles of animals and humans • I can tell you some things about me that have changed and some things about me that have stayed the same • I can tell you how my body has changed since I was a baby • I can identify the parts of the body that make boys different to girls and can use the correct names for these: penis, testicles, vulva, anus • I understand that every time I learn something new, I change a little bit • I can tell you about changes that have happened in my life	**Knowledge** • I can recognise cycles of life in nature • I can tell you about the natural process of growing from young to old and understand that this is not in my control • I can recognise how my body has changed since I was a baby and where I am on the continuum from young to old • I can recognise the physical differences between boys and girls, use the correct names for parts of the body (penis, anus, testicles, vagina, vulva) and appreciate that some parts of my body are private • I understand there are different types of touch and can tell you which ones I like and don't like • I can identify what I am looking forward to when I move to my next class	**Knowledge** • I understand that in animals and humans lots of changes happen from birth to fully grown, and that in mammals it is the female who has the baby • Can identify how boys' and girls' bodies change on the inside during the growing up process and why these changes are necessary so that their bodies can make babies when they grow up • I understand that as boys' and girls' bodies change at puberty, they need to think more about keeping clean and healthy • I know some simple ways of keeping clean which can keep me healthy and protect me from some infections • I can start to recognise stereotypical ideas I might have about parenting and family roles • I can identify what I am looking forward to when I move to my next class	**Knowledge** • I understand that lots of things make up a person's identity and this is what makes them unique • I can describe how a girls' body changes in order for her to be able to have babies when she is an adult, and that menstruation (having periods) is a natural part of this • I know there are many types of family and that often our family members form part of our inner circle • I know there are trusted people I can turn to if I need help and support as I grow up and go through puberty • I know how the circle of change works and can apply it to changes I want to make in my life • I can identify changes that have been and may continue to be outside of my control that I learnt to accept • I can identify what I am looking forward to when I move to a new class	**Knowledge** • I am aware of my own self-image and how my body image fits into that • I can explain how a girl's body changes during puberty and understand the importance of looking after ourselves physically and emotionally • I can describe how boys' and girls' bodies change during puberty • I understand that sexual intercourse can lead to conception and that is how babies are usually made • I also understand that sometimes people need IVF to help them have a baby • I can identify what I am looking forward to about becoming a teenager and understand this brings growing responsibilities • I can identify what I am looking forward to when I move to my next class	**Knowledge** • I am aware of my own self-image and how my body image fits into that • I can explain how girl's and boys' bodies changes during puberty and understand the importance of looking after myself physically and emotionally • I can describe how a baby develops from conception through the nine months of pregnancy, and how it is born • I understand how being physically attracted to someone changes the nature of the relationship and what that might mean about having a girlfriend/boyfriend • I am aware of the importance of a positive self-esteem and what I can do to develop it • I can identify what I am looking forward to when I move to my next class

© Jigsaw Education Group

Social and Emotional skills	**Social and Emotional Skills** • Recognise that changing class can elicit happy and/or sad emotions • Can say how they feel about changing class/ growing up • Can identify how they have changed from a baby • Can say what might change for them they get older • Can identify positive memories from the past year in school/home	**Social and Emotional Skills** • I understand that changes happen as we grow and that this is OK • I know that changes are OK and that sometimes they will happen whether I want them to or not • I understand that growing up is natural and that everybody grows at different rates • I respect my body and understand which parts are private • I enjoy learning new things • I know some ways to cope with changes	**Social and Emotional Skills** • I understand there are some changes that are outside my control and can recognise how I feel about this • I can identify people I respect who are older than me • I feel proud about becoming more independent • I can describe what I enjoy about being a boy or girl whilst understanding we are all different • I am confident to say what I like and don't like and can ask for help • I can start to think about changes I will make when I am in Year 3 and know how to go about this	**Social and Emotional Skills** • I can express how I feel when I see babies or baby animals • Recognise how I feel about these changes happening to me and know how to cope with those feelings • I have started to think about the ways to keep my body clean as I grow up and how I feel about this • I can express how I feel when my ideas are challenged and might be willing to change my ideas sometimes • I can start to think about changes I will make next year and know how to go about this	**Social and Emotional Skills** • I can describe how I will have choices about developing my own identity and interests as I grow up and that these will contribute to who I am • I have strategies to help me cope with the physical and emotional changes I will experience during puberty • I know that sometimes I may feel anxious about growing up and this is normal. There are people who can support me • I am confident enough to try to make changes when I think they will benefit me • I can express my fears and concerns about changes that are outside of my control and know how to manage these feelings positively • I can reflect on the changes I would like to make next year and describe how to go about this	**Social and Emotional Skills** • I know how to develop my own self esteem • I understand that puberty is a natural process that happens to everybody and that it will be OK for me • I can express how I feel about the changes that will happen to me during puberty • I appreciate how amazing it is that human bodies can reproduce in these ways • I am confident that I can cope with the changes that growing up will bring • I can start to think about changes I will make next year and know how to go about this	**Social and Emotional Skills** • I know how to develop my own self esteem • I can express how I feel about the changes that will happen to me during puberty • I can recognise how I feel when I reflect on the development and birth of a baby • I understand that respect for one another is essential in a boyfriend/girlfriend relationship, and that I should not feel pressured into doing something I don't want to • I can express how I feel about my self-image and know how to challenge negative 'body-talk' • I know how to prepare myself emotionally for the changes next year **Alternative Piece 4a: Adolescent Friendships** • Knowledge: I know myself well enough to maintain positive relationships with others whilst still keeping my own identity • Social and Emotional: I can be assertive when appropriate

Emotional Literacy	We have a section to support Emotional Literacy with a whole-school progression document which includes words which have been carefully chosen to help pupils explore the topics within each Puzzle, whilst also equipping them with language that matters for their relationships and understanding of the world around them. By using this vocabulary consistently, teachers will be actively supporting children's emotional literacy, giving them the words they need to understand and express how they feel.
