

Be Internet Secure: Password Poet

Legend is writing a rap to remind all the Internauts how to build a mega strong password. Help them come up with lyrics together! You might want to include tips like:

- ☐ make it memorable but tricky to guess
- ☐ change it regularly
- ☐ don't share it
- ☐ mix little letters, capitals, numbers and symbols
- ☐ use 8 characters or more

No printer? You and your child can scribble over this on your tablet or phone – or write your lyrics from scratch. Either way, please share them with us! You could even perform your rap and send us the results.

Building passwords isn't tough – you just need to protect your stuff.
When you make one up online, here's what you do every time...
